Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Executive summary

The *Survey of Labour and Income Dynamics* (SLID) is a longitudinal survey which collects information related to the standard of living of individuals and their families. By interviewing the same people over a period of six years, changes and the causes of these changes can be monitored.

A preliminary interview of background information is collected for all respondents aged 16 and over, who enter the SLID sample. Preliminary interviews are conducted for new household members during their first labour and income interview after they join the household. A labour and income interview is collected each year for all respondents 16 years of age and over.

The purpose of this document is to present the questions, possible responses and question flows for the 2006 preliminary, labour and income questionnaire (for the 2005 reference year).

1. Introduction

Every January, the *Survey of Labour and Income Dynamics* (SLID) interview is conducted using computer-assisted interviewing (CAI). CAI is paperless interviewing. This document is therefore a written approximation of the CAI interview, or the questionnaire. The CAI process is as follows:

(a) A question appearing on the computer screen is read aloud to the respondent;
(b) The respondent's answer is directly entered by the interviewer;
(c) Based on the answer given, and/or age or other flow criterion, the computer determines the next question to be asked and displays it on the screen.

A preliminary interview of background information is collected for all respondents aged 16 and over who enter the *Survey of Labour and Income Dynamics* (SLID) sample. For the majority of the longitudinal respondents, this occurs when a new panel is introduced and the preliminary information is collected during the first labour and income interview. However, all persons living with a longitudinal respondent are also interviewed for SLID. Preliminary interviews are conducted for new household members (joiners) during their first labour and income interview after they join the household. Longitudinal persons who have turned 16 while their household is in the SLID sample are then eligible for SLID interviews so they are asked the preliminary interview questions during their first labour and income interview.

A labour and income interview is collected each year for all respondents 16 years of age and over. Respondents have the option of answering income questions during the interview, or of giving Statistics Canada permission to access their income tax records.

In January 2006, data was collected for reference year 2005 from panels 4 and 5. A new panel, Panel 5, was introduced which consisted of approximately 17,000 households. Panel 4, in its fourth year, also consisted of approximately 17,000 households.

This research paper presents the content of the 2006 preliminary, labour and income interview (for the 2005 reference year), including question wording, possible responses and flows of questions.

2. Content

The preliminary interview is comprised of three main modules:

EX: Work experience – data on both part- and full-time work;

DE: Family and personal history – marital history, birth history, mother tongue, place of birth, ethnic origin;

EP: Educational attainment – certificates and degrees, years of schooling and parents' level of education.

For collection 2006, although the EP questions were still part of the preliminary interview, they were asked within the education module of the labour interview.

The labour and income interview is comprised of eight main modules:

DA: Dates – Employer start and end dates are collected for up to six employers during the year. This module has an employer roster (a list of all employers the person worked for during the year), and a ghost employer roster (a list of former employers reported in previous interviews). Feeding back of employer names from the previous January also occurs in this module. For a person on unpaid absence at the beginning of last January, the absence as well as the employer name is fed back.

Regarding "don't know"s in employer dates: To collect information on an employer, the interviewer must be able to establish the date the person started working for that employer. If the interviewer is able to establish the month the job began, but not the day, the computer will set the day to 01 and the employer will be accepted. Similarly, if the interviewer can establish the month the job ended, but not the day, the computer will set the day to 28. However, if the interviewer cannot get an estimate of the month in which the job started or ended, it is impossible to proceed with that employer, and it is deleted from the roster. If the respondent reports no employers during the past year, the respondent skips to SE.

The following classification of jobs is used in DA:
Job type 1 - a job at which the respondent was working on December 31st of the previous reference year.

Job type 2 - a job at which the respondent was not working on December 31st of the previous reference year but to which he/she was attached (i.e. on temporary lay-off or away on an absence of more than a week).

Job type 3 - a job not previously identified in the survey, generally one at which the respondent started working during the reference year.

Jobless spells are derived from the dates of employment.

Employment with each employer is characterized as ended or un-ended, referring to whether the respondent was working for the employer at the end of the reference year. If a job type 1 is denied, the job is deleted without an array of probing questions. For job type 2, one probing question is asked if the job is denied.

CH: Characteristics – This will be collected for up to six employers per respondent. For job type 1 and 2, information on employer name, and type of work performed is fed back to the respondent. A change in occupation and wages can be recorded, as can one change in work schedule for job types 1 and 2. This allows greater precision in deriving implicit hourly wage rates or total annual earnings from an employer (total annual earnings from all employers will also be collected in May in the income interview). The number of absences of one week or more (except paid vacation), and details on the first and last absences with each employer are also recorded.

SE: Search – If there was a jobless spell identified in 'DA' or if the respondent did not work at any time in the year, the flow will be directed to this module. For each jobless spell, there are a series of questions on job search, and the desire for employment. For people who begin the year with a jobless spell, the search status in January is fed back to the respondent only if they were looking for work.

CO: Compensation – This module asks questions regarding receipt of Employment Insurance, Social Assistance, or Workers' Compensation. This information is collected for everyone, independently of any reported job absences and jobless spells. The information which is collected includes:

- receipt of Employment Insurance, Workers Compensation, and Social Assistance during reference year;
- months received.

SP: Spend – This module requests information on support payments, both paid and received. Also, there are questions on child care expenses. The first time SLID collected this type of information was for reference year 1999.

ED: Education – This module on formal education includes educational activity during the year, and degrees, certificates or diplomas obtained. If respondents attended more than one type of educational institution, several flows will result providing information also on field of study, program length, and time attended (months, weeks, hours). By asking question ED_Q150 about other degrees, certificates or diplomas received during the reference year, this identifies situations where a respondent received a degree in the reference year although the program finished the previous year. Questions are asked to identify whether respondents have ever received a student loan and, if so, how much was borrowed and how much is still owed. The education module also contains a few questions on the most important work-related course taken by the respondent.

DI: Disability – This module contains questions concerning disability which are asked of all respondents. The basic structure of the questions concern disability at home, at work and in other activities, but a distinction is made in the questions asked for those who worked versus those who didn't work in the reference year. No questions are asked about disability at work for respondents aged 70+.

IN: Income – This module asks for the amounts of income received from various sources. Everyone age 16 and over receive these questions unless

they give Statistics Canada permission to access their Canada Revenue Agency tax records. Edits are programmed using the information collected in the labour portion of the survey to remind respondents that they had reported being employed or receiving employment insurance, social assistance or workers' compensation, to ensure that the amounts are entered. Flags are also set during the labour interview so that amounts are collected where applicable for: employer pension plan contributions; professional membership dues or malpractice insurance premium payments; and union dues.

The major components of the preliminary, labour and income modules are listed below.

Preliminary modules

EX

- When started working full time
- Any years did not work
- Ever worked part time

DE

- Dates of marriage, divorce, separation, living common-law
- Number of children gave birth to or fathered and year first child born
- Adopted or raised any other children
- Mother tongue, country of birth, ethnic origin
- Immigrant status, Treaty or Registered Indian status

EP

- Years of elementary and high school completed
- Certificates and degrees received prior to the reference year
- Highest level of education of parents

Labour and income modules

DA

- Job tenure
- Reasons for leaving job

CH

- General job characteristics
- Supervisory/managerial responsibilities
- Work schedule
- Wages & fringe benefits
- Absences from work for one or more weeks

SE

- Jobless spells
- Job search activities

CO

- Receipt of employment insurance
- Receipt of Workers' Compensation
- Receipt of Social assistance or welfare

SP

- Receipt of support payments
- Payment of support
- Payments for child care

ED

- Type of educational establishment
- Months/hours attended school
- Information on any diplomas, certificates or degrees earned
- Student loans; amount borrowed and amount owed
- Information on the most important work-related course taken

DI

- Identifies disabilities/activity limitations
- Impact of condition on amount and/or the ability to work

IN

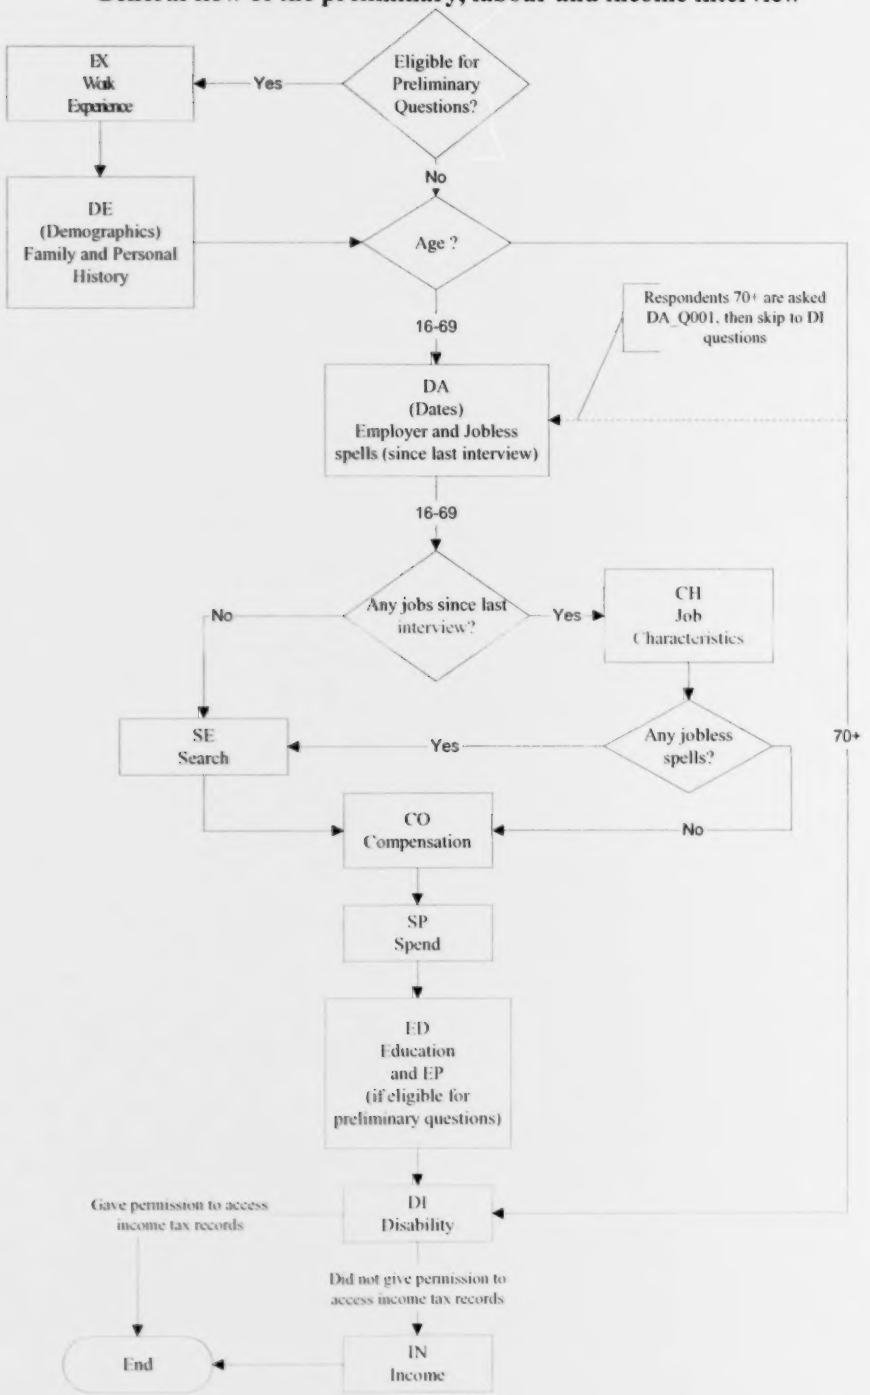
- Request permission to access income tax records
- Amounts of income from various sources
- Amount of employer pension plan contributions
- Amount paid for professional membership dues or malpractice premiums
- Amount paid in union dues

The general flow of the preliminary, labour and income interview is given in the flowchart on the next page.

An initial divergence based on age can be seen. Those aged 16-69 are asked the labour series of questions, while those 70 years and over flow to DA_Q001 (main activity) and then to the Disability (DI) module. For the former, if the respondent worked since the last interview, the characteristics of up to six jobs are asked, followed by identification of jobless spells. If a jobless spell occurred, the

respondent is asked the Search (SE) series of questions. These are also asked for respondents who have not worked since the last labour interview. The Compensation (CO) questions are then asked of all respondents, as are subsequent modules on Spend (SP), Education (ED) and Disability (DI). Income (IN) questions are only asked if the respondent does not give Statistics Canada permission to access their Canada Revenue Agency tax files.

General flow of the preliminary, labour and income interview



3. What's new

The education module has been redesigned and the EP module questions, which were previously asked of eligible respondents in the preliminary interview, are now asked within the ED module of the labour interview. This was done to eliminate the repetition of questions that previously occurred between the ED and EP questions and to facilitate a more natural transition from current to historical education questions.

Preliminary component

New preliminary questions

DE_Q037

This question was added to determine if the respondent has been married more than once.

DE_Q054, DE_C054, DE_E054

The question, logic and edit were required as a result of the addition of DE_Q037.

Modified preliminary questions

DE_Q035

A Yes response now flows to the new DE_Q037 question.

Renumbered DE module questions

"Other (specify)" response field question numbers have been renumbered to conform to the standards for Statistics Canada social surveys.

Old question number	New question number
DE_Q095S	DE_S095
DE_Q100S	DE_S100
DE_Q130S	DE_S130

Labour component
New labour questions

CH_C035, CH_C038

Some respondents find it difficult to remember the date they were offered a job. Logic has been added to skip questions CH_Q035 and CH_Q038 if the date the job was started is before the reference year.

SE_Q007

This question was added to be more comparable to the *Labour Force Survey* and more precisely to improve the derivation of the labour force activity. In the past, all full-time students were classified as not in the labour force. Starting with this collection year, it will be possible to differentiate those looking for a full-time job after their student life (not in the labour force) from those looking for a part-time job while they are studying (unemployed). This distinction is currently done in the *Labour Force Survey*. For all types of people looking for a job, it is also useful to know what kind of jobs they are looking for to help identify the type of jobs required to meet the demand of the labour force.

Education module

A few questions in the education module have been reworked or added in order to be comparable to other surveys and/or to increase our knowledge about the education programs taken by the respondent.

ED_Q024, ED_Q034, ED_Q059, ED_Q084, ED_Q109, ED_Q139, ED_Q164, EP_Q047, EP_Q048, EP_Q083, EP_Q085

The questions which relate to the reason a particular program was selected, have been primarily redefined to be more comparable to the *Adult Education and Training Survey*. This change in wording also simplifies the flow of questions for the respondent. We have combined the questions on objectives related to enrolment in an education program (e.g. college) with the questions on the reason for selecting a particular field of study or specialisation (e.g. chemistry).

ED_Q027, ED_Q044, ED_Q069, ED_Q094, ED_Q119, ED_Q145, ED_Q156, ED_Q157, ED_Q161, ED_Q162, EP_Q033, EP_Q081

Questions have been added for all educational programs which ask where a diploma was received (i.e. province, territory or outside of Canada). Previously

we only asked where most of the elementary and high school education was received. The 2006 Census asked "**In what province, territory or country did this person complete his/her highest degree, certificate or diploma?**" (Question 31) so the same question was added to SLID in order to be more comparable to the Census and to identify the origin of the educational background of the individual.

ED_Q079, ED_Q158

These questions have been added to determine if the respondent was enrolled in, or received a diploma from, a registered apprenticeship program. This was done to be more comparable with the most recent Census data and to ensure that we are drawing a better picture of the types of educational programs available and their impact on the labour market.

EP_Q060

This question was added for persons who had reported going to university in the reference year. Since the preliminary education segment (EP) is now included within the reference year questions on education (ED), this question is meant to avoid confusion between reference year education participation versus before reference year education participation.

EP_Q072

This question was added to provide a full-time/part–time variable for respondents who attended university prior to the reference year. This variable will be for internal use only.

ED_Q200, ED_Q205, ED_Q210

With the higher cost of post-secondary education observed in the past years, education is seen more and more as a pecuniary and timely investment. The amount of debt a person is required to undertake may influence their decision to stay at school or to enter the labour market. To increase our understanding of this complex decision taking process, a few questions have been added to help identify the level of student loan activity made by past and present students. One of the first mandates of SLID was to compile information about assets and debts. Collecting information on student loans is the first step into the debt side of this mandate. This loan information also can be compared with other surveys at

Statistics Canada (e.g. *Survey of Financial Security, National Graduates Survey, Follow-up of Graduates*).

Modified labour questions

CH_Q030

Flow change. Previously interviewed respondents (prlflg = 2) used to flow directly to CH_Q035. Now, if there is a valid start date for the job (DA_Q045, DA_Q050 or DA_Q055) and the start year is before the refyear, the respondent will be asked CH_Q050 (if self employed) or CH_Q040 (if not self employed). If there is no valid start date they will go to CH_Q035.

CH_Q060

The response categories for this question are no longer read out loud to the respondent.

CH_Q160

Flow change. If the hours per week the respondent was paid for is less than 30 hours, they will now be asked CH_Q169 (did they want to work more than 30 hours per week) before going to CH_Q170.

CH_Q246

Don't know and refuse responses are now permitted for this question.

CH_Q251, CH_Q252

The placement of these questions has been reversed. CH_Q251 has become CH_Q252 and vice versa. The wording has been changed slightly for both questions. For the new CH_Q252, "don't know" and "refuse" responses are now permitted. Flow changes have resulted for both questions.

SE_Q001, SE_Q005

A Yes response now flows to the new question SE_Q007 before going to SE_Q010.

SP_Q005, SP_Q015, SP_Q025, SP_Q035, SP_Q045

The maximum allowable amounts have been changed for these questions.

SP_Q035

The minimum allowable amount has been changed to 0 (from 1). Previously, if a respondent did not pay for child care during the holidays the system did not allow them to provide a nil amount.

ED_Q020, ED_Q021B, ED_Q023, ED_Q031, ED_Q032, ED_Q033, ED_Q056, ED_Q058, ED_Q080, ED_Q081, ED_Q083, ED_Q092, ED_Q093, ED_Q106, ED_Q108, ED_Q133, ED_Q136 (cat 3), ED_Q138, ED_Q155, ED_Q160, ED_Q163, ED_Q185, ED_Q190

Wording changes have been made to these questions as a result of the redesign of the education module.

ED_Q020, ED_Q021, ED_Q021B, ED_Q023, ED_Q025, ED_Q026, ED_Q028, ED_Q030, ED_Q031, ED_Q032, ED_Q033, ED_Q035, ED_Q043, ED_Q045, ED_N045, ED_N050, ED_Q055, ED_Q056, ED_Q057, ED_Q058, ED_Q060, ED_Q068, ED_Q070, ED_N070, ED_N075, ED_Q080, ED_Q081, ED_Q082, ED_Q083, ED_Q085, ED_Q093, ED_Q105, ED_Q106, ED_Q107, ED_Q108, ED_Q110, ED_Q118, ED_Q130, ED_Q138, ED_Q140, ED_Q143, ED_Q144, ED_Q146, ED_Q150, ED_Q155, ED_Q160, ED_C163, ED_Q163, ED_Q165, ED_Q172, ED_Q175, ED_Q182, ED_Q185, ED_Q190, EP_Q005, EP_Q010, EP_Q015, EP_Q020, EP_Q025, EP_Q030, EP_S030, EP_Q045, EP_Q050, EP_E070, EP_E080, EP_Q090, EP_Q100

Flow changes have been made to these questions as a result of the redesign of the education module.

EP_Q001, EP_Q020, EP_Q070, EP_Q075, EP_N075 (cat 3)

Wording changes have been made to these questions as a result of the redesign of the education module.

ED_Q310

New response categories have been added to this question and some wording changes have been made to existing response categories to be more comparable to the *Adult Education and Training Survey* and to simplify the flow of questions for the respondent.

DI_Q010

Respondents over 69 years of age are no longer asked this question.

PT_Q001

New logic has been added which uses the new variable Hhinfo.Licprm59 to determine the flow to PT_Q001. Also, respondents over age of 80 will not be asked permission to access driver's licence files. A new response category was added for respondents who do not have a driver's licence.

Renumbered labour questions:

All "Other (specify)" response field question numbers, in all of the labour modules, have been renumbered to conform to the standards for Statistics Canada social surveys. Due to the redesign of the education module and the addition of new questions, some question numbers had to be changed in the Educ and Edupre modules.

Deleted labour questions

ED_Q040, ED_Q040S, ED_Q065, ED_Q065S, ED_Q090, ED_Q090S, ED_Q115, ED_Q115S, ED_Q145, ED_Q145S, ED_Q170, ED_Q170S, EP_Q055, EP_Q055S, EP_Q090, EP_Q090S

We have combined the questions on objectives related to enrolment in an education program with the questions on the reason for selecting a particular field of study or specialisation. This resulted in the deletion of some questions.

ED_Q021A, ED_Q032, ED_Q057, ED_Q082, ED_Q107, ED_Q132

These questions asked for the number of weeks the respondent attended their specific schooling program. Respondents were finding this difficult to answer and were providing only approximate answers (often just calculating the number of months multiplied by 4 weeks per month). It was decided to derive the number of weeks using information already collected - months, number of hours and status (full/part) of the student - instead of asking the question.

EP_Q060

This question was dropped because question EP_Q035 covers the length of completion of the certificate. For most respondents the length of the most recent certificate represented the same amount of time as the overall EP_Q060 question.

Modified income questions

IN_Q005

This question has been reworded and an interviewer note has been added that may be read out loud if necessary.

IN_Q065, IN_Q070, IN_E070, IN_Q075, IN_E075

New logic was added to skip the compensation questions if the respondent did not indicate earlier in the labour questions that they had received Employment Insurance benefits, Social assistance or Workers' compensation benefits.

IN_Q140

The total income calculated in this question now includes any amount reported for support payments from SP_Q005.

IN_Q145

A hard range minimum of "0" has been added to this question. If the respondent did not pay any income tax, a "0" must be entered in order to continue.

4. How to read this document

This document is a written approximation of the CAI interview, or the "questionnaire". The CAI process is as follows:

(a) A question appearing on the computer screen is read aloud to the respondent.
(b) The respondent's answer is directly entered into the computer by the interviewer.
(c) Based on the answer given, and/or age or other flow criteria, the computer determines the next question to be asked and displays it on the screen.

Question numbers: For each section, the question numbers refer to the actual numbers used in the collection application which appear on an interviewer's computer screen. Bold text is read, as worded, by the interviewer. Instructions for the interviewer are preceded by the word, "INTERVIEWER" and are not read out loud to the respondent.

Naming conventions: Naming conventions were changed to conform to the standards for Statistics Canada social surveys.

Questions with Q (e.g. EP_Q001) = question text read to a respondent
C (e.g. EP_C001) = internal check
N (e.g. EP_N035) = interviewer instructions
E (e.g. EP_E001) = interviewer instruction edit
? (e.g. ?DA_Q001) = F1 help available

Pre-fill items: Shown in square brackets [ ], are items specific to each respondent's interview. The application inserts the relevant information into the question, making it simply a matter of reading for the interviewer. Pre-fill items include:

[respondent] – This is the first and last name of the household member to whom the questions refer. This is not necessarily the person who is talking to the interviewer.

[fname] - This is the first name of the household member to whom the questions refer. This is not necessarily the person who is talking to the interviewer

[current year] – This is the year **during which** the information is collected (2006).

[reference year] – This is the year **for which** the information is collected (2005).

[previous reference year] – This is the year prior to the reference year (2004).

[age] – This is the respondent's age in years, calculated as of January 1 of the current year.

[years ago] – This is the number of years ago the respondent first started working.

[employer] - This is the employer referred to in the question. Questions may be asked for a maximum of six employers. In each case, the specific employer's name is placed in the pre-fill item.

[class of worker] - Indicates whether the respondent is a paid worker, self-employed or working in a family business without pay.

[type of work] - This is a short description of the respondent's occupation or type of work performed, at last contact.

[industry] - This is a description of the industry of the employer as provided by the respondent.

[start date] and [end date] - Depending on the question, these refer to either the start and end dates of a specific job, of an unpaid absence, or a jobless spell.
[prefill from Empl.oldwage and Empl.oldwageu] - Wage reported previous year for respondent.

Headers: For some questions, important information is noted at the top of the screen. In this document, this information is given at the beginning of each section description.

Ranges: Hard ranges are specified for some of the questions. The hard range gives the highest and lowest acceptable response values. The system will not accept a number outside the range. For example, in CH_Q110 (number of employees supervised directly) a hard range of 1 - 995 exits. If the interviewer tries to enter a number greater than 995, the system will not accept this.

The soft range specifies an upper limit which, if exceeded, will result in a probe to confirm that the amount entered is correct. If it is correct, the interviewer can enter it as long as it does not exceed the hard range. For example, if the respondent states that the number of people supervised was 65, this exceeds the soft range of > 60. If confirmed as correct, the interviewer can enter this amount as it does not exceed the 995 upper limit of the hard range.

Dates: All dates are in DD/MM/YYYY format unless otherwise specified.

6.6 ED Module

The EDUC module basically covers two types of training activities. The first series of questions (ED_Q021 to ED_Q190) deals with "training programs". A program is a series of courses offered by, through or under the auspices of an educational institution (private or public) that are used as credits towards a degree, diploma or certificate.

The education module captures all institutions attended by the respondent during the reference year and all degrees, certificates or diplomas completed. This results in a series of flows for each type of institution attended (ED_Q020). For example: if a respondent attended high school and university, we would ask ED_Q021 to ED_Q026 and ED_Q130 to ED_Q175. If another attended community college and then a business or commercial school we would ask ED_Q030 to ED_Q070.

If ED_Q005 = "Yes" (attended an educational institution in the reference year), and flows for attending all institutions have been completed, ED_Q150 asks about any other degrees, certificates or diplomas received during the reference year. This identifies situations where a respondent received a degree in the reference year although the program finished the previous year.

Without ED_Q150, these "degrees" would not be recorded. Similarly, if ED_Q005 = "No" then ED_Q185 will also pick up these hidden "degrees", that is degrees or certificates awarded after the year that the respondent attended the institution.

The second series of questions (ED_Q300 to ED_Q350) deals with job-related "training courses". For the purpose of the questionnaire, training activities such as courses, seminars, workshops, conferences and forums are covered by these questions.

ED_R001: **The next series of questions will be about education.**

7.1 Income edits

Soft edits (other than the edits appearing in the questions above) were used during data collection.

Income Amount check

This edit was used during data collection to check the income source amounts entered by the interviewer.

When the amounts entered in the computer are outside the predetermined range, one of two error messages pop up: **"Amount seems too high"** or **"Amount seems too low"**.

These messages appear when the amounts entered are outside the soft ranges shown in the questions above, which is determined using data collected in last year`s SLID income interview. These ranges exclude approximately 5% of amounts below or above the selected limits.

The interviewer has the option to either 'Suppress' to confirm the value or 'Close' or 'Goto' to enter a new value.
